

2-LINE PAGER

Ultimate Flexibility

With its 2 line, 40 character display and 4 large operation buttons the PageOne 2-line pager allows you to quickly and easily read, delete or save messages. You can store up to 20 messages in the pager's 1,200-character memory for future reference.

Greater Versatility

For ultimate discretion the PageOne 2-line pager can be programmed to alert you silently to an incoming message or you can choose from a range of audible alerts.

Cost Effective

Paging is still one of the most cost effective ways to communicate with numerous people simultaneously. With a standard monthly flat rate fee, which includes the cost of messaging, the 2-line pager is very easy to budget for.

Faster Communication

You can rely on your message coming through in seconds because PageOne uses advanced satellite technology to send the message to transmitter sites across the country and through to you.

Easy to Use

To send a message, callers simply dial the 24 hours PageOne Call Centre, quote your pager number and leave the message with the operator. Alternatively messages can be sent direct from PC's, terminals or by using one of PageOne's easy to use Direct Access packages.

Unsurpassed Back-Up

You need never worry about things going wrong. PageOne make a point of service. In fact, we provide a highly experienced Customer Services Centre for all service enquiries – whether you need a replacement, repair or simply want to know how the system works or how far it reaches – just call our Customer Services department on 0844 811 0070.
