

PageOne Service Charter

Introduction

The PageOne Service Charter outlines our key commitments to you and the standard of service that you can expect to receive.

PageOne is committed to providing a premium service to its customers; our aim is to work with our clients to further enhance our service offering and support levels. Where there is already a service level agreement in place between a client and us, this charter should be read in conjunction with that agreement.

Complaints Procedures

We make every effort to ensure that our customers are happy with the level of service and the products and service they receive from us. However, despite our best efforts, things can go wrong. When they do we want to know, so that we can put them right as soon as possible.

Customer complaints in the first instance should be directed to the Customer Support Team or your appointed Account Support Manager as detailed in your Service Level Agreement. The CRM Advisor will listen to your complaint and seek to resolve the problem while you are on the telephone line. If this is impossible, we will agree a course of action with you.

Should you not be satisfied with the resolution or timescale, you may escalate your complaint to a PageOne Senior Advisor. If for any reason you are still not satisfied you may escalate your complaint to the CRM Director. (More information is available in our 'Customer Complaint Handling Process', which is available from the Customer Support Team).
